1. Qualitative Information on Financial Results for the Third Quarter of Fiscal 2015

(1) Explanation of Management Results

The prescription pharmaceuticals market experienced NHI drug price reductions and generic drugs usage promotion when medical treatment fees and NHI drug prices were revised in April 2014, so long-listed drugs' sales have been continually decreasing. Accordingly, the market volume during the third quarter of fiscal 2015 as a whole posted a 2.9% decrease from the previous quarter period (estimated by CRECON Research & Consulting Inc.).

Under these circumstances, in the field of pharmaceutical wholesaling operations, the TOHO HOLDINGS Group strived to secure profits from fee business toward the reform into value-added service model as well as to control appropriate profits more thoroughly than before. At the same time, the Company carried out thorough cost-cutting measures through the comprehensive reform of marketing and distribution utilizing distribution centers and call centers for operating efficiency.

As a result, the Company's operating results for the consolidated cumulative third quarter of the fiscal year ending March 2015 recorded 877,782 million yen for net sales (a decrease of 2.3% on a year-on-year basis), 7,900 million yen for operating income (a decrease of 24.3% on a year-on-year basis), 12,371 million yen for ordinary income (a decrease of 18.1% on a year-on-year basis), and 10,997 million yen for net income (an increase of 20.4% on a year-on-year basis).

For the sake of strengthening the financial base, the Company issued convertible bonds of 15 billion yen and simultaneously decided to acquire its own shares of about 12 billion yen in December 2014. Therefore, it started to acquire its own shares since then and endeavored to improve capital efficiency.

The outline of operating results by business segment is as follows:

In the pharmaceutical wholesaling operations, the TOHO HOLDINGS Group was evaluated on its proposal-based marketing and sales activities centered on its unique customer support systems, so that it could strengthen the relationships with medical institutions. Though net sales decreased on a year on year basis, the Company strived to keep gross profit both by enforcing price control structure in each category and by pursuing profits from fee business toward a change into value-added service model.

As a result, net sales were 839,891 million yen, a decrease by 2.9% against the same period of the preceding year and operating income were 7,575 million yen, a decrease by 18.3% on a year-on-year basis.

In the field of dispensing pharmacy operations, the Company took measures to improve profitability through management of pharmacies corresponded to medical treatment fees revisions and to reduce the expenditure by the standardization of pharmacy operation and consolidation to the headquarters. As a result, net sales were 68,664 million yen, an increase by 6.9% against the same period of the preceding year and operating income were 458 million yen, a decrease by 55.6% on a year-on-year basis.

In the SMO operations, net sales for the third quarter of fiscal 2015 amounted to 241 million yen (a year-on-year decrease of 38.1%) and segment income (operating income) was 86 million yen.

In the information equipment sales operations, net sales for the third quarter of fiscal 2015 amounted to 908 million yen (a year-on-year decrease of 13.9%) and segment loss (operating loss) was 127 million yen.

(Note) Segment sales include inter-segment transactions.

(3) Changes in Accounting Policies and Changes in Accounting Estimates, and Correction and Restatement (Change in the Accounting Policies)

With regard to the "Accounting Standard for Retirement Benefits" (Accounting Standards Board of Japan (ASBJ) Statement No. 26, dated May 17, 2012; hereinafter referred to as the "Retirement Benefits Accounting Standard") and the "Guidance on Accounting Standard for Retirement Benefits" (ASBJ Guidance No. 25, dated May 17, 2012; hereinafter referred to as the "Guidance on Retirement Benefits"), the Company has adopted the provisions stipulated in the texts of Section 35 of the Retirement Benefits Accounting Standard and of Section 67 of the Guidance on Retirement Benefit obligations and changed its method for deciding the discount rate from the traditional method in which the bond duration period as the benchmark for deciding the discount rate shall be set as the number of years that approximates the employees' average remaining service period to a new method in which the Company adopts a single weighted average discount rate that reflects both expected payment periods for retirement benefits and the amount for each expected payment period.

As for the application of the Retirement Benefits Accounting Standard and the like, the Company adjusted retained earnings at the beginning of this consolidated third quarter by reflecting the effect of the change in the method of calculating retirement benefit obligations, in accordance with the transitional treatment as stipulated in Section 37 of the Retirement Benefits Accounting Standard.

As a result, provision for retirement benefits increased by 43 million yen, while retained earnings decreased by 28 million yen at the beginning of this consolidated third quarter. Also please note that the effect on the profit and loss for the cumulative period for this consolidated third quarter is minor.
