1. Qualitative Information on Financial Results for the Three Months Ended June 30, 2024

(1) Explanation of Management Results

In the prescription pharmaceuticals market in the first quarter under review, NHI drug price revisions were implemented in April 2024, lowering NHI drug prices by 4.67% on a drug cost basis. With the end of government subsidies for COVID-19 treatment in April of this year, sales of related products such as therapeutic drugs and reagents were expected to decline. However, owing to the emergence of new variants and other factors, the number of newly infected patients is currently on the rise, and the outlook remains uncertain.

The Group developed the Medium-term Management Plan 2023-2025 "Create the Next Generation," for a period of three years from 2023. It set out four basic policies: (1) Business transformation, (2) Investment for growth and improvement of profitability, (3) Sustainability management, and (4) Improvement of capital efficiency and enhancement of shareholder returns. Based on these policies, we implemented specific measures to maintain sustainable growth and enhance corporate value through such means as active business alliances and digital transformation (DX).

With regard to business transformation, in order to shift to a team system centered on secondary medical care areas, which we aim to start in FY2026, we are implementing various initiatives, including joint promotion of pharmaceutical MSs (marketing specialists) and reagent MSs, and the consolidation and closure of business sites. In June 2024, we began offering the Kyoso Mirai Portal, which provides at-a-glance information on order history, delivery schedule, stockout, etc., with a view to improving the work efficiency of our sales staff and the convenience of our customers.

As initiatives regarding investment for growth and improvement of profitability, we have been entrusted since April 2024 with the distribution of the regenerative medical product Sakracy® by Hirosaki Lifescience Innovation, Inc. (hereinafter, "Hirosaki LI"). We invested in Hirosaki LI in July to support its business development and production capacity improvement. The Group is determined to fully cooperate with Hirosaki LI on distribution as well by utilizing the Group's nationwide distribution network, sophisticated distribution system, and know-how in emergency response.

In the area of sustainability management, in order to conduct responsible procurement activities based on a relationship of trust with our suppliers, we have formulated and announced the Group's Procurement Policy and participated in the Declaration of Partnership Building to promote coexistence and co-prosperity with our suppliers in the entire supply chain. We have also established the Purchasing Management Department to address issues in the Group's purchasing activities.

In addition, we have invested in One Capital, Inc., a domestic venture capital firm, and employed its DX advisory team, which has many years of experience and a track record in global major consulting firms, in a Group-wide effort to promote DX.

Furthermore, the Management Strategy Committee, which was established for the purpose of accelerating the implementation of the initiatives of the Medium-term Management Plan and enhancing their effectiveness, focuses first on verifying profit growth strategies and proceeds with discussions on (1) specific action plans for improving profitability and productivity in each business (including indirect divisions) and (2) growth investments in existing businesses, peripheral businesses and new businesses. Specifically, with the top priority of steadily achieving an ROE of 8% and establishing an earnings and financial structure that can maintain an ROE of 8% or higher on an ongoing basis, we are examining measures to increase profitability and productivity and investment for growth centered on our core pharmaceutical wholesaling business. At the same time, bearing in mind the declining trend in gross profit margin, which is a structural problem in the pharmaceutical wholesaling business, we are examining not only measures to improve productivity in the wholesaling business, but also the strategies for, and the possibility of growth investment in, other business segments (dispensing pharmacy business, pharmaceutical manufacturing and marketing business, and other peripheral businesses), as well as the possibility of new businesses that leverage our strengths, in order to establish a second pillar of earnings. Based on these examinations, we plan to clarify our ideal state for the next generation, build the optimal business portfolio to achieve it, and, based on that,decide on a policy for holding assets, such as cross-shareholdings, together with a medium-term capital allocation policy,

The Company's consolidated operating results for the three months ended June 30, 2024 recorded 373,044 million yen for net sales (an increase of 6.2% on a year-on-year basis), 2,278 million yen for operating profit (an increase of 22.9% on a year-on-year basis), 2,928 million yen for ordinary profit (an increase of 16.1% on a year-on-year basis), and 1,804 million yen for profit attributable to owners of parent (an increase of 18.0% on a year-on-year basis).

The outline of business segment operating results are as follows.

In the pharmaceutical wholesaling business, while sales of COVID-19-related products decreased compared to the same period of the previous year, sales of specialty pharmaceuticals and other limited-handling products for selected wholesalers continued to grow steadily. In price negotiations with medical institutions, in order to comply with the Guidelines for the Improvement of Commercial Transaction Practices of Ethical Drugs for Manufacturers, Wholesalers, and Medical Institutions/Pharmacies that were revised in April 2024, we continued our efforts to negotiate unit prices for individual products to better reflect their individual value and distribution costs. We also worked to negotiate separately for drugs that are particularly needed for medical purposes. As for customer support

systems, we strengthened the proposal of simplified Mizar and promoted the switch from ENIF to FutureENIF. As a result, the pharmaceutical wholesaling business posted net sales of 360,544 million yen (an increase of 6.3% on a year-on-year basis) and segment profit (operating profit) of 2,660 million yen (an increase of 19.7% on a year-on-year basis) for the three months ended June 30, 2024 under review.

In the dispensing pharmacy business, in order to implement the transformation of the dispensing pharmacy business, which is a key measure of the Medium-term Management Plan, we pressed ahead with the reorganization of operating companies. Consequently, the number of dispensing pharmacy companies decreased from 27 at the end of March 2024 to 17 by July 1 this year, and the reorganization in East Japan is almost complete. Moreover, in order to promote pharmacy DX, we worked to promote the use of the My Number health insurance card, online medication instructions, etc. As a result, Net sales of the dispensing pharmacy business were 22,932 million yen (an increase of 0.5% year on year) and segment loss (operating loss) was 492 million yen.

In the pharmaceutical manufacturing and sales business, the Group has been engaged in the stable supply of highquality and high value-added pharmaceuticals by strictly monitoring the quality of products based on its own verification system and establishing a planned production system. In addition, we launched 3 ingredients and 8 products of generic drugs in June 2024. As a result, the pharmaceutical manufacturing and sales business posted net sales of 2,904 million yen (an increase of 9.2% on a year-on-year basis.) and segment profit (operating profit) of 369 million yen (an increase of 25.9% on a year-on-year basis.).

In the other peripheral businesses, net sales amounted to 1,523 million yen (an increase of 3.4% on a year-on-year basis.) and segment profit (operating profit) was 51 million yen (an increase of 43.3% on a year-on-year basis.). (Note) Segment sales include inter-segment transactions.

(Application of the Accounting Standard for Current Income Taxes, etc.)

The Accounting Standard for Current Income Taxes (ASBJ Statement No. 27, October 28, 2022; hereinafter, "Revised Accounting Standard 2022"), etc. have been applied from the beginning of the first quarter of the fiscal year ending March 31, 2025. Revisions concerning the categories in which current income taxes should be recorded (taxes on other comprehensive income) are subject to the transitional treatment set forth in the proviso of paragraph 20-3 of the Revised Accounting Standard 2022 and the transitional treatment set forth in the proviso of paragraph 65-2 (2) of the Guidance on Accounting Standard for Tax Effect Accounting (ASBJ Guidance No. 28, October 28, 2022; hereinafter, "Revised Guidance 2022"). The change in accounting policies had no impact on the consolidated financial statements for the first quarter under review.

With regard to revisions related to changes in the accounting treatment for consolidated financial statements when gains/losses on sale of shares, etc. in subsidiaries resulting from transactions between consolidated subsidiaries are deferred for tax purposes, the Company has applied the Revised Guidance 2022 from the beginning of the first quarter under review. The change in accounting policies was applied retrospectively to the consolidated financial statements for the first quarter of the previous fiscal year and the entire previous fiscal year. The change in the accounting policies had no impact on the consolidated financial statements for the first quarter of the previous fiscal year.
